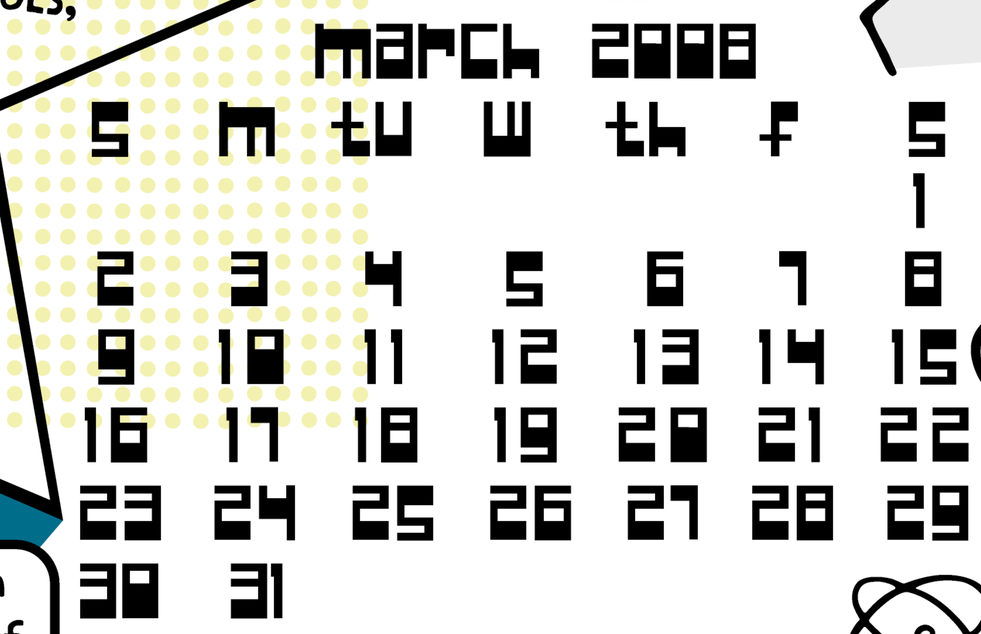
This brazen monster – the solar-powered Greenzilla – is terrorizing America with heretical views. It has no faith in eternal economic expansion. It sins against short-term profiteering. It defies the sanctified corporate order with pagan earth worship

Holy homeland! the Jumbotron never lies. Who will save us from this menacing conscience?

HOMELAND CORP

Citizens of America, give me your tires, your coal, your petrol gases, give me your guns, your souls, your botoxed lasses

Arghhhh! It's the zombies come to make us conserve!



Now I see! With the complicity of a fearful and distracted public, the neo-con klan can annihilate all the alternatives and maintain the cycle of insanity

Ask not what Exxon can do for you, ask what you can do for Exxon
