**RINGTONE SAMPLER**  
Our top quality glitch-craft ringtone remixer! Choose from thousands of presets. Now at the low price of \$74.20

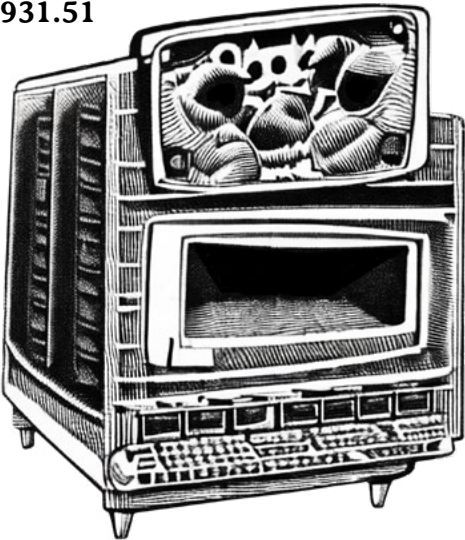

**SCREEN OBSERVATION PANEL**  
Our display lacks features that would make it convenient to use, but after a few years of struggling with its poor user interface design, you will yearn for a newer model that delivers on the promises that this unit's marketing implied. Just \$89.23

*The Celebrated Highest Grade*  
**RADIOPHONIC PARA-MODULATOR**  
Flip the switch on this little beauty and you'll experience delight that once led to the satisfied expression "now we're cookin' with gas!" True this unit consumes crazy electrical energy, even when it's not used, but – oh! – when the power switch jolts this circuitry, the onboard fan, panels, and lighting arrays do not disappoint. Sliding controls and clicking potentiometers give this solid state equipment a feeling of sophistication that helps one to ignore its inevitable transition to a slowly decomposing landfill carcinogen leeching toxins. Don't wait! It's just \$132.84

## High Quality SMART TV PIZZA OVEN COMBO

This wonderful innovation lets you prepare a 'TV dinner' while watching your favorite programs. On-screen prompts remind you to glance down. Never overcook again! Extreme heat will also cook the capacitors and other electrical components, but you'll never have to clean an oven that fails in six months! Now just \$931.51

## HIGH-FIDELITY SOUND STREAMER AND BOOM TRANSMITTER

Our latest boom box has fewer moving parts than in the days of cassette tapes, but you'll still need to untangle numerous inscrutable software upgrades before this device will stream any music. It will soon succumb to a parade of firmware fluxuations, a rapid obsolescence destiny made possible by a regime of Digital Rights Management. Soon it will make a stylish bedside table! Sixteen D-cell batteries not included. Promotional price of \$80.95

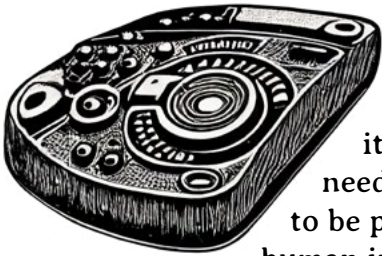

\$80<sup>95</sup>

LIGHT  
EMITTING COLOR  
GAZE MAGNET CONSOLE

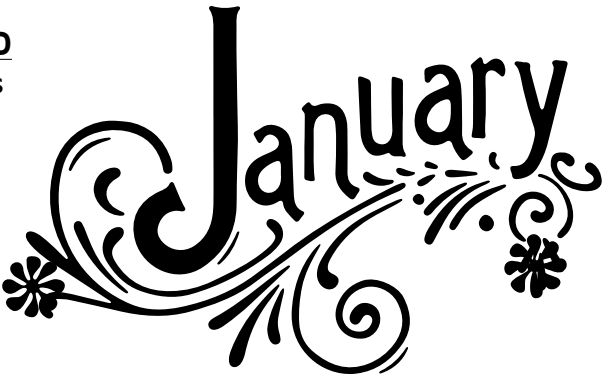

Low quality components assure that this device often fails shortly after its warranty expires, leaving a consumer with little choice but to hurl it into a dumpster. Even so, for those willing to overlook such strategic deficiencies, this device looks similar to more costly models that tend to last several months longer. It's unrepairable, and yet it looks okay! Just \$325.22

Now \$196.46

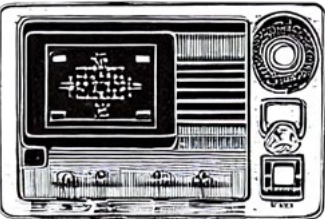

**PROTO E-WASTE**  
Our design relies upon innumerable materials: metals, elements, plastics, toxic chemicals, and plastics. The backstory for this kind of wizardry starts in aquifers, mines, refineries, rivers & factories, and ends in heaps, in landfills, and in dumpsters all around the world. Each ephemeral unit is on sale for just \$111.67

Trouble finding cheap stuff online? Acquire, use, and dispose of more e-waste with 'CoCo.' Track online facts and reviews curated to ignore awkward externalities. Now \$31.11

## ELECTRICAL EAR OFFENDER

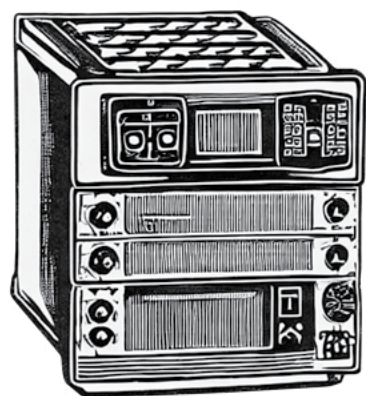

Rated unwise and unhealthy by responsible people, this powerful assault on the senses reaches decibel levels formerly accorded to myths and legends. Now \$91.11

## GFX NUMWARE

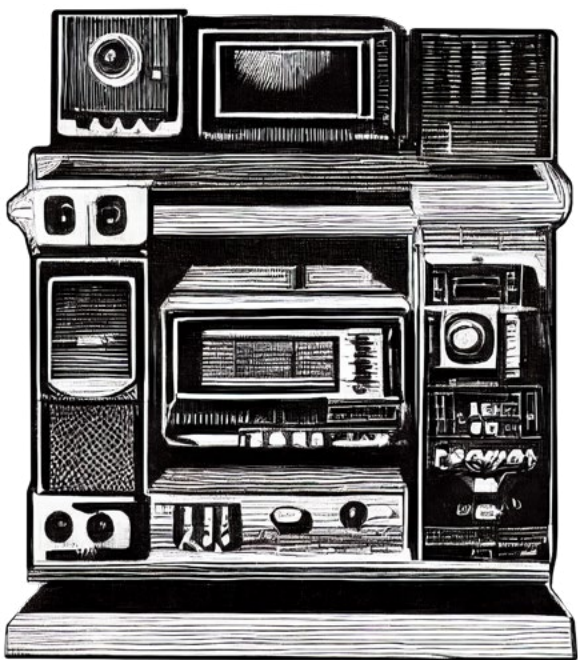

A portable gizmo to electronically induce distraction and prevent focus. Requires extreme connectivity to maintain fullest stupor and ideal detachment. Yes for just \$102.00

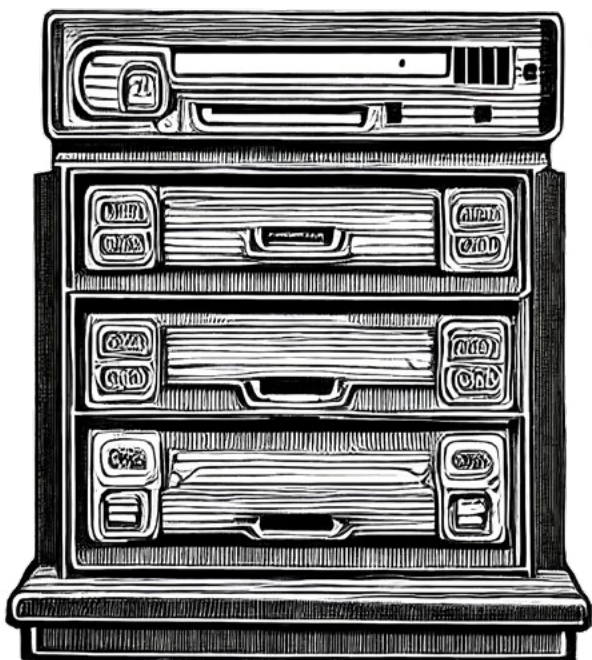

**CYBERNETIC NETWORK STORAGE SYSTEM**

Experience a memory format your parents never imagined! This solid state recorder has space for hours of audio and video. What's more it can be operated remotely with 1024 bit encryption and twelve factor authentication. Your records and data could not be safer if they were in a steel vault, except in cases of fire, wetness, blunt force, or humidity, which void the one year manufacture and workmanship warranty. A bargain at \$1899.99

**ARTIFICIAL EMERGENCY RADIO SCANNER**

Not just any police scanner, this servo-locking fiberoptic multi-band marvel offers broadband connectivity and a time-shifting stream server. All sorts of synthetic emergencies are recordable and streamable through the integrated smartphone app. With four processing cores for generative crisis mining, there's always a crime in progress. Five large fans and water cooling insure that this hyper threaded beast will not melt your cabinetry. Just \$804.25

**WIRELESS BRIDGE ROUTER WITH VIRTUAL INTERFACE**

A premium device with 12 high speed wired ports, has an on-board WiFi antenna, and features a parabolic antenna adapter for satellite bridge compatibility. The double secret protocol for super encrypted secrecy ensures hours of frustration using the idiosyncratic button combinations. It's no double secret that the shell corporation that sold this device is already defunct, so the firmware upgrade menu is an ironic gesture. The device's wanton power consumption makes it the

**CABLE MODEM**

Our cheapest unit. Do not turn it off! Your internet may not come back on if you do. Summoning a higher power for technical support is recommended in the user's prayer book. Now just \$65.<sup>35</sup>

**OAK STREAM BOX**

With voice remote, finding garbage to watch is tedious and dumb. Plus, you can customize your experience with the My Sloth feature to store favorites from all your apps in one awkward and buggy mess! Media subscriptions not included. Order today for \$75.18

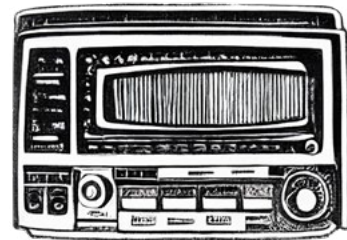

**BROADBAND E-WASTE**

**OUR MOST ORIGINAL SET TOP BOX**

The device cable companies think that you would like to have sitting in your home! Featuring the worst, most poorly-conceived, untested interface strategies ever invented! You'll want to pair this with our premium multi-function 108 button remote control, which is round bottomed so it falls off of your couch arm. Yours for only \$35.18

**RECHARGEABLE POWER PACK**

Never leave the grid! Our fan-cooled direct current inverter powers your computers, game equipment, and phones while you multi-task in the great outdoors! Its smog emissions and carbon footprint are maximized by recharging with gasoline engines. A noxious array of mined materials like mercury, lead, cadmium, nickel, bromine, antimony, and lithium can leech out of this device long after you throw it away! Now only \$99.33

**TOP QUALITY**

*Such Value Was Never Known Before!*

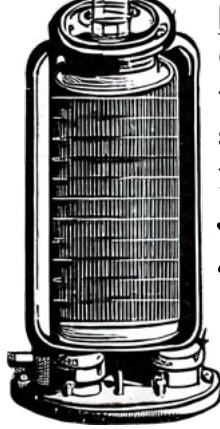

**TOXICITY**

**REMOTE CONTROL ELECTRICAL BLANKET**

Tired of walking to the bedroom to warm up your bed on cool evenings? This unit pairs with your smart phone to control the electrical current in your blankets from anywhere in the wide area network. Many buttons control the digital rheostat on the LCD console. It goes up to eleven! Queen ..... \$97.95 King ..... \$117.17

**PANOPTIC RECTITUDE OVERSEER**

Our digital surveillance sensor is an artificially intelligent savior! It identifies the meaning of your camera footage using its neural network technology, summoning police, SWAT teams, and other social services when a transgressive scene is detected. A dream for just \$71.85

**AUDIO EFFECTS MIXER**

Decades of analog refinement inspired audio enthusiasts to develop a digital equivalent for modulating sounds electronically. This device is one of many opportunistic exploits of their unpatented labors in electro-sonic architecture. Committed to a single printed circuit board, bathed in rare earth metals in acid and powered by lithium ion batteries. Its hum and tendency to ignite may dampen enthusiasm, but for those who missed the terrifying viral video, this device seems just about right. Now just \$82.80

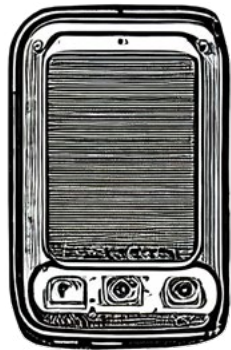

**SOON TO BE OBSOLETE DSLR DIGITAL CAMERA**

Hundreds of awkward menus, configuration options, output formats and plugs that are redesigned and replaced each year! Get seductive features that will be easier to use when camera interfaces catch up to phone apps. A future relic! \$972.11

**SMART LED LIGHTING CONTROLLER**

Replaces flickering fluorescents! Bright LEDs can illuminate tiny manufacture dates on old electrical ballasts. Millions made before 1979 contain highly carcinogenic chemical compounds called polychlorinated biphenyls. Our device brings fun things to life, leaving you to discover the dangers of PCBs in weird calendars! Now \$50.02

**EASY NUKE MICROWAVE OVEN**

Pre-train your toddlers so that they can decipher the arcane interfaces on today's microwaves. Recipe book includes 'frozen dinner' and 'popcorn'! Batteries not included. Just \$57.82

PERSONAL ELECTROMECHANICAL ORGANIZER

Made from toxic minerals and bathed in hazardous chemicals, this device’s ornate printed circuit boards permit an unprecedented miniaturization of personal data. A symptom of the never-ending production of unrepairable consumer electronics, this complex object succeeds preexisting models

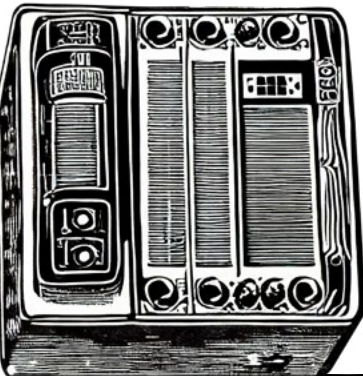

and anticipates new revised models that will soon replace it. Sleek button panels and hidden knobs insure that you won’t want to miss this sought-after signature edition. Generous credit terms on installment purchases available. Our price \$323.18

QUANTUM AMPLIFIER AND CASSETTE PLAYER

Our finest component stereo system, subsidized by the US Department of Energy, freezes a Bose-Einstein Condensate – a cloud of atoms cooled to near absolute zero – to capture their oscillations and vibrations. The gigantic vacuum tube on top enables amplification of the quantum acoustics. Integrated Bose cassette equipment and Einstein Audio Systems permit the high fidelity recording of these mysterious waves.
